BLUETOOTH®

PAIRING A DEVICE FOR THE FIRST TIME

1. Simultaneously power on and begin the pairing process by pressing and holding the power/pair button for 4 seconds. *The indicator will flash red and blue. When pairing, remain within 1 metre of the headphones.*
2. Using the controls/settings of your Bluetooth device, select **BD-HDSET-1** to pair with the headphones. *If your device requires a password, enter **0000**. Refer to the user manual for your device for instructions on pairing and connecting Bluetooth devices. Once paired, the headphones will automatically connect unless unpaired manually or settings are erased by resetting the device.*
3. If your device becomes unpaired or is unable to connect, repeat the above steps.

PLAYING AUDIO WIRELESSLY

1. To play or pause, use the controls on the connected Bluetooth® device or press the **Play/Pause/Volume** button.
2. Audio played through the connected Bluetooth® device will now be heard through the headphones.

PHONE CALLS

1. When a call is received, a ringtone will sound through the headphones.
2. Press the **Power/Pair** button to accept the call, or accept the call using the controls on the connected device.
3. The incoming call will now be heard through the headphones.
4. To end the call, press the **Power/Pair** button or end the call using controls on the connected device. *To redial the last dialed number, press the **Power/Pair** button twice.*

3.5mm AUX AUDIO INPUT

Requires a 3.5mm to 3.5mm AUX audio cable (included).

1. Connect a 3.5mm AUX audio cable to the **Line In Input** on the headphones and the **audio output** on your audio device.
2. Use the controls on the connected device to select and play your audio through the headphones.
