## OVER EAR HEADPHONES WITH NOISE CANCELLING

### USER MANUAL

Thank you for purchasing Buddee Over Ear Headphones with Noise Cancelling. For optimum performance and safety, read these instructions carefully before connecting, operating or adjusting this product. Refer to this manual for future reference.

#### INTRODUCTION

Immerse yourself in your favourite music without distraction. The Buddee Wired Over-Ear Headphones come with Noise Cancelling technology. Blocking out unwanted ambient sounds no matter the environment you're in. Listen to music on a bus or airplane without any loss of sound quality.

The comfortable headphones connect to any smartphone, mp3 player or other device with a 3.5mm AUX input.

#### FEATURES

- USB charging
- Noise Cancelling
- On-ear controls
- Soft leather cushions
- Anti tangle cable
- Micro-USB charging

#### PACKAGE CONTENTS

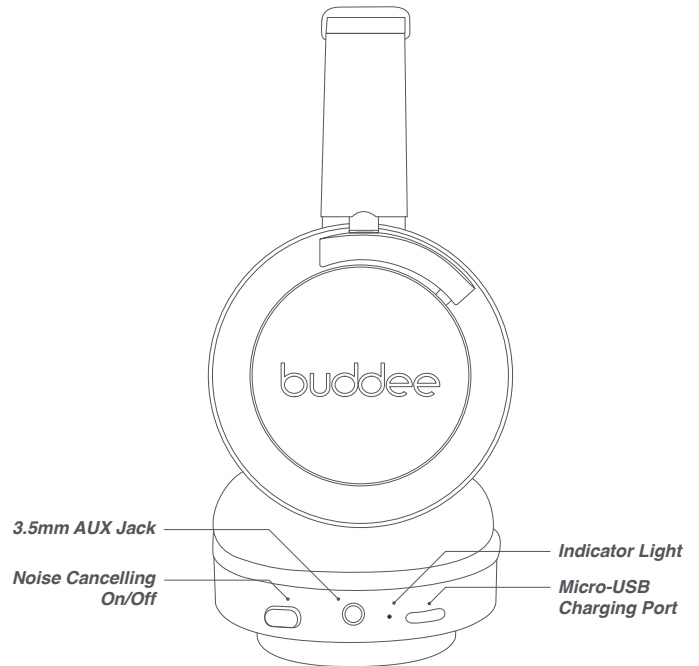

Before attempting to use this unit, please check the packaging and make sure the following items are contained in the shipping carton:

- Over Ear Headphones
- Micro-USB charging cable
- 3.5mm AUX audio cable
- User manual

#### CHARGING

1. Plug the micro-USB end of the included cable into the micro-USB charging slot under the left hand side of the headphones.
2. Connect the USB end with a powered USB source such as a computer, laptop or USB wall charger. The indicator light will flash red meaning it is charging successfully. A flashing red indicator light means the headphones are low on battery.
3. Once the headphones are fully charged the indicator light will turn off. A full charge from an empty battery usually takes 2 hours and gives you up to 12 hours of noise cancelling use.

**NOTE:** For first time use, charge the headphones for at least 4 hours prior to using. Avoiding using a car charger for this initial charge.

#### NOISE CANCELLING

1. Activate the Noise Cancelling feature by pressing the **On/Off** button located under the left hand side of the headphones. The indicator light will turn green meaning it is active.

2. To switch this feature off press the same button once more and the indicator light will switch off. *The headphones still work without the Noise Cancelling active.*

#### TECHNICAL SPECIFICATIONS

Input: 5.0V  
Speaker size:  $\Phi 40\text{mm}$   
Sensitivity:  $103\text{dB}\pm 3\text{dB}$   
Impedance:  $32\Omega$   
Noise reduction:  $18\text{db}-22\text{db}$   
Noise reduction range:  $50-550\text{HZ}$   
Cable length: 1.2 metre  
Battery: Litlon 250mAh  
Charging time: 2 hours  
Working time: 12 hours (with NC on)
