WIRELESS OVER EAR HEADPHONES WITH NOISE CANCELLING

USER MANUAL

Thank you for purchasing Buddee Wireless Over Ear Headphones with Noise Cancelling. For optimum performance and safety, read these instructions carefully before connecting, operating or adjusting this product. Refer to this manual for future reference.

INTRODUCTION

Answer calls and stream your favourite tunes wirelessly via Bluetooth® connectivity. Noise cancelling technology paired with soft leather ear pieces will have you comfortably immersed in music.

Noise cancelling technology can be activated to electronically mute background noise. Use it with Bluetooth® or an auxiliary cable connection to enhance the quality of the audio that is playing through the headphones.

Pair your smartphone, or other Bluetooth® enabled device with your headphones by selecting them in your device's Bluetooth® settings.

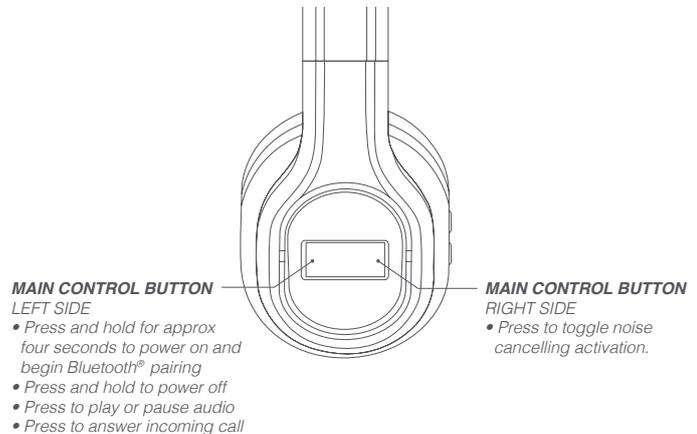

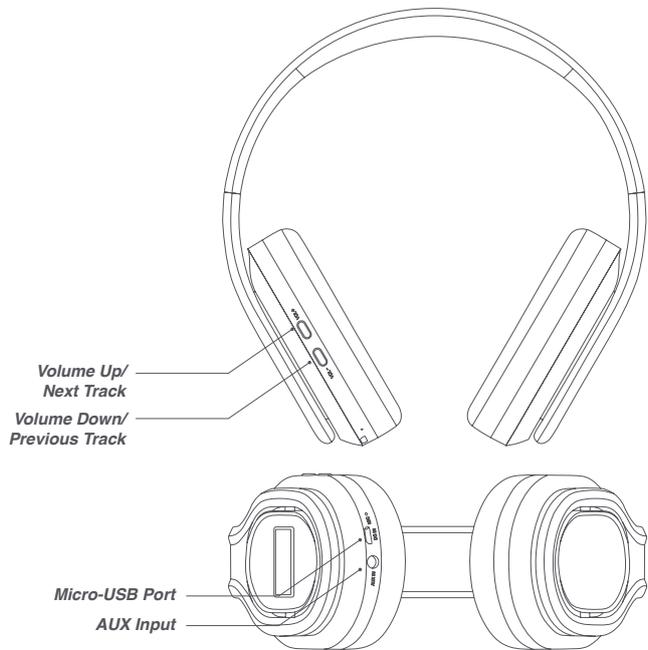

FEATURES

- Bluetooth® audio
- USB charging
- Noise Cancelling
- On-ear controls
- Soft leather cushions
- Micro-USB charging
- Built in microphone
- Folding adjustable headband

CHARGING

1. Using the micro-USB cable included, connect the headphones to the USB port of a powered computer or USB power adaptor. *Please fully charge the headphones before first use.*

NOISE CANCELLING

The noise cancelling feature will electronically mute background noise. It can be used with the Bluetooth® or AUX modes to enhance the quality of audio that is playing through the headphones.

1. To activate noise cancelling press the **right side** of the **Main Control Button**, located on the right hand side of the headphones. *A green LED light in the button will turn on indicating it's activated.*

2. To deactivate noise cancelling press the **right side** of the **Main Control Button** again. *The green LED light will now turn off.*

NOTE: Noise cancelling will function even if the headphones are not powered ON. To conserve battery power, it is recommended to power the headphones OFF if you are using the noise cancelling feature without playing audio.

USING BLUETOOTH® AUDIO

PAIRING A DEVICE AND PLAYING AUDIO

1. Press and hold the left side of the **Main Control Button** for approximately 4 seconds to power ON and begin pairing. LED lights in the button will begin flashing red and blue. *When pairing remain within 1 metre of the headphones.*

2. Using the controls on your *Bluetooth®* device, select **BD-NCHBT-1** in your *Bluetooth®* settings/ device menu. If your device requires a password, enter **0000**. *Refer to the manual of your device for specific instructions on pairing Bluetooth® devices.*

3. When successfully paired, the LED lights will only flash blue and a chime will sound through the unit. Audio played through the connected *Bluetooth®* device will now be play through the headphones.

4. Use the controls on your connected device to select and begin playing audio. To **play or pause** audio using the headphone controls, press the **left side** of the **Main Control Button**.

ANSWER PHONE CALLS

1. When a call is received, a ringtone will sound through the unit.

2. To accept the call, press the **left side** of the **Main Control Button**, or use the controls on the connected phone.

3. To refuse the call, press and hold the **left side** of the **Main Control Button**.

4. To call back, double press the **left side** of the **Main Control Button**.

NOTE: You can also use the controls on your connected mobile device.

USING THE AUX PORT

1. Insert the included 3.5mm audio cable to the AUX port on the headphones and connect with a compatible audio device.

2. Use the controls on the connected device to select and play audio.

NOTE: The AUX port will function even if the headphones are not powered ON. To conserve battery power, keep the headphones OFF when using AUX is connected.
